Introducing a new home from King's Contracting with expected completion by mid-July 2025. This contemporary stucco and stone ranch-style residence features a split room layout and includes four bedrooms, two bathrooms, and a three-car garage with space for small RV or utility trailer parking. The home boasts a large, open, and vaulted living, dining, and kitchen area designed for entertaining. Expansive windows overlook the backyard, enhancing the grand living space. The kitchen is equipped with stained slate grey wood cabinets, marble-like quartz countertops, stainless steel appliances, and black hardware for a sophisticated look. A large pantry/closet adjacent to the kitchen provides ample storage. The micro hood is vented to the outside, ideal for the at home chef. The master bathroom offers dual vanities, a large, oversized tile shower with a frameless glass door, a private toilet room, and a spacious walk-in closet. The generously sized fourth bedroom at the front of the house can also serve as an office, craft room, exercise room, or media room. Front xeriscape landscaping, a tan vinyl rear yard fence, and a double RV gate are included. Additionally, the property benefits from pressurized irrigation water.
