\$795,550

4 Bedrooms | 3 Bathrooms | 3,861 Sqft

This custom Redlands home sits on 1.66 acres overlooking Connected lakes with unmatched views of the valley, the Colorado National Monument, and the Bookcliffs. Watch the seasons change on the Mesa and enjoy front-row seats to the airshow and Fourth of July fireworks. Inside, warm pine tongue-and-groove ceilings and walls bring a coastal charm. The living room's large picture window frames panoramic views, while the kitchen features a professional-grade DCS six-burner gas range with a built-in griddle. The primary suite offers radiant-heated floors, a five-piece bath with unique marble tilework, a walk-in closet, and a lock-safe closet with a fire-rated door. Another lock-safe room is located in the main-floor guest bedroom. The two-level deck creates multiple spaces for entertaining or taking in the 360-degree scenery. Nature trails run directly behind the home, offering a peaceful setting. Additional highlights include surround-sound audio, radiant-floor heating in both the primary suite and the garage, forced-air heating for the basement and other living areas, vaulted ceilings, a wet bar, a jetted tub, and a four-car attached garage with RV parking. The home has been well cared for and is move-in ready, with only minor updates left to make it your own, such as choosing new flooring in the primary suite. Thoughtfully built additions have been done
