3 Bedrooms | 3 Bathrooms | 2,360 Sqft

Make new memories in this beautifully updated home with fully remodeled bathrooms in the desirable and conveniently located Moonridge Falls Subdivision in the heart of Grand Junction! Enjoy the beautiful engineered wood floors, gorgeous quartz countertops in a well appointed kitchen begging to cook and entertain in. And, ALL appliances stay! In addition to a freshly painted main level, enjoy the gas fireplace that makes this open concept main floor with soaring ceilings in the living room feel warm and inviting! 2 Bedrooms and a bathroom with an open family loft area upstairs gives a nice separate space for additional uses. Utilize great entertaining spaces inside and outside, with HUGE mature trees and a covered patio that covers the length of the home with multiple access points. A spacious 3 car garage rounds out this ideal home and location! Call me to see it in person soon!
