Welcome to this stunning newly built "Modern Tudor" style home. This newly constructed home by the 2024 award winning "Parade of Homes" builder is located in the prestigious "Soaring Eagle Subdivision." If you're tired of the same old design, this home is a refreshingly bright and different, with blue quartz countertops and accents carried throughout the home, delightful Moroccan tiled backsplashes in the kitchen, tasteful wallpapered accents, high-end lighting throughout its 3,460 square feet. 3 bedrooms with 2 offices - one could be converted to a 4th bedroom. A stunning primary bedroom offers an oasis-like primary bath with a sauna and a surprise in the primary closet. Don't forget the huge 3-car side-loading garage with plenty of space. The septic has been engineered to add on an ADU, if wanted. So many great upgrades with the property, not enough room to mention all of it. Come take a look today.
