4 Bedrooms | 3 Bathrooms | 3,460 Sqft

Welcome to this newly constructed Modern Tudor in the prestigious Soaring Eagle Subdivision, built by the 2024 Parade of Homes award-winning-builder. Colorado National Monument views frame both the front and back of the home, with sweeping Grand Mesa views from the upstairs flex room. Tired of the same predictable design? This 3460 sq ft home breaks the mold with blue quartzite countertops and accents flowing throughout, Moroccan-tiled backsplashes in the kitchen, Grand Pacific white oak engineered wood flooring, tasteful wallpapered feature walls, and high-end lighting in every space. The floor plan offers 3 bedrooms plus 2 offices - one easily convertible to a 4th bedroom - along with an upstairs flex room. The primary suite is a true retreat, with an oasis-inspired bath featuring a private sauna and a custom closet concealing a Murphy door to bonus storage. A spacious 3-car side loading garage provides room for vehicles and gear, the backyard is outdoor-kitchen ready, and the septic system has been engineered to accommodate a future ADU. Come see for your self today.
